To laundro zone (PTY) LTD

Dear Clive Fletcher:

I would like to take this opportunity to say thank you very much.

I will not lie to you and tell you that I was the all believer about 5 to 6 months ago when you came and saw me about your Ozone Technology. I was very Skeptical about this and thought that somebody hand sucked on to much ozone, but let me tell you I am now the converted. What the technology of this system has done for my laundry is Nothing short of incredible, no no I am not trying to sound over the top here, but this is the honest truth, no other company without this unit is able to beat my quality. I am not just talking about what you can see but the microbiological aspect of the goods as well.

Clive once again thank you for allowing us to be a guinea pig in the development, testing and trials of the ozone generating plant.

I would like to wish you all the Godspeed in the world with your ozone units and good luck.

Your most satisfied customer

Chris Todode

Sales and production manager
